

Nowy Styl Supplier Diversity Policy

At Nowy Styl we embrace and respect core values such as tolerance, honesty and humility. It is also very important for us to support local communities, because we know that they harbour diverse knowledge and talents. We work with local suppliers who represent our community and at the same time trust us to be good leaders of positive and continuous development. By maintaining a diverse pool of qualified suppliers, by strengthening diverse suppliers, demonstrating cooperation with the diversity boards of suppliers and reporting important measures, we will achieve our goal of creating and maintaining a global and diverse supply chain.
